There's no point in overcrowding your eCommerce website with unnecessary functions that will only clutter and slow down your site. Keep in mind that WordPress and eCommerce platforms like WooCommerce offer their own native features, so try to look for a theme with unique features and eCommerce templates that both WordPress and your eCommerce platform don't cover. We'll help you narrow down the list by naming must-have features your eCommerce theme may need. Stunning design. Give the best first impression to your visitors with a design that appeals to them. Keep your target audience in mind and use tools to encourage them to explore your site further.eCommerce platform integration. WordPress eCommerce platforms, such as WooCommerce, BigCommerce, and Shopify, will provide you with eCommerce-related features. These include payment gateways, checkout pages, shopping carts, and others.Drag-and-drop page builder compatibility. Drag-and-drop builders can save you time and money, as you can build your eCommerce store yourself.Pre-built page templates. Using pre-made templates can make your website creation process much easier and more efficient.Mobile responsiveness. People increasingly prefer to shop from mobile devices, so make sure your online store is easily navigable both on small and large screens. Keep in mind that Google favors mobile-optimized sites too.SEO support. Check if your theme includes SEO plugins, like Yoast. It can help you create meta-data for each image and meta description for each page, boosting your site's SEO performance.Interactive shopping carts. Shopping carts should be auto-updated as your customers add more items to their cart. They should also provide a comfortable and effortless checkout process. Bonus points if it also sends cart abandonment emails to your shoppers.Easy navigation. Your online store's navigation ideally reflects your inventory classification system. If it's hard to navigate, people will be reluctant to shop in your store.Product reviews. Reviews affect purchase decisions. Make sure visitors can see your product ratings in the products' thumbnails.Social sharing tools. Build a buzz around your products by enabling people to share your store's content on their social media. This feature includes two elements - social sharing buttons and social follow buttons. Fast load. Pages that take more than three seconds to load lose 53% of visitors. Fast loading speed means higher conversion rates. Compatible with all browsers. Facilitate people to and whatever browsers they may be using.Security. Ensure your customers' data is protected from any cyber threats, such as data breaches or system hacks.
